

Silhouet-Tone

THE BEST OF MICRODERMABRASION

SILVER PEEL

Affordable crystal-free microdermabrasion system for uniform exfoliation without consumable, using surgical grade steel or diamond tips.

ESSENTIAL PEEL

Professional microdermabrasion device operating in dual mode: crystal-free system or application of corundum crystals with the **unique Turbo Flow Projection System**. Economical and efficient.

VORTEX PEEL

High-end professional device offering our most powerful microdermabrasion program that works in dual mode: crystal-free system or application of corundum crystals with the **unique Turbo Flow Projection System**.

ELECTROLYSIS

S.T MEDIC
Une division de Silhouet-Tone Corporation

ÉVOLUTION 7HD

The **Evolution 7HD** sequential features a revolutionary combination in the world of electrolysis: the power of a **6.78 MHz** frequency, with the comfort of a technology based on the exclusive concept of sequential modulations.

- ◆ Manual and preprogrammed modes to give you full control of your treatments.
- ◆ A touchscreen to ensure simple and interactive treatment.
- ◆ Ultrafast modulation of 2/1000 of a second combined with the low-frequency power of **6.87 MHz**.

ST-250

Electrolysis device for simple and versatile hair removal, using four thermolysis modes and five blend modes. Preprogrammed to treat 18 specifics zones on the face and body.

- ◆ **4 thermolysis modes:** super flash, flash, slow, pulsed.
- ◆ **5 blend modes:** pulsed blend, unblend (High Frequency constant), High Frequency first, galvanic first, High Frequency pedal control.

Silhouet-Tone

SPA ESSENTIALS

CIRRUS 500

The Cirrus 500 Combo combines the benefits of 4 essential aesthetic functions and 2 specialized procedures for a series of unique facials with optimal results.

- Cleansing • Rotating brushes • Micro-touching
- Drainage • Infusion

BLUSTREAM STEAMER*

- Ready to use in 7 minutes
- Constantly controlled temperature
- Silent generator (03)
- Biocompatible tank and non-toxic components
- Double CSA-US certification

*Base not included

MULTIPIIL

Adjustable wax heater for even heat diffusion and ideal wax consistency. CSA CE approved, it easily hooks up four other wax heaters with a single socket.

*Base, Steamer and accessories not included

CIRRUS ULTRADERM

Compact high-frequency device, used for its stimulating, soothing and sanitizing effects.

CIRRUS IONTODERM

A cleansing machine with a quick selection to liquefies sebum deposits. Has a dual function: cleaning and ionization.

Device used at the beginning of a treatment for cleansing and exfoliation of the skin. It has 3 brushes: 2 in soft silk for the face and neck in 2 different sizes and 1 firmer for the back and feet.

S.T Medic

MED-ESTHETIC DIVISION

MPR TOROIDAL RF FACE AND BODY N° 100677*

REJUVENATING THE FACE | TONING THE BODY

The MPR Toroidal RF uses radiofrequency on both the face and body in order to provide non-invasive age-fighting and skin-firming procedures, in addition to offering an effective way to reduce dimples based on a toroidal distribution of radiofrequency. This unique concept allows to achieve an even transmission of the energy and quickly reach the therapeutic temperature. Moreover, it will allow to effectively control.

RMD FACE N° 90459*

SKIN REMODELING SOLUTION POWERED BY THE SYNERGY OF 5 NON-INVASIVE TECHNOLOGIES

This device's distinctive combination of technologies treats skin texture, the smoothing of age-related expression lines, the tightening of pores and the toning of facial and neck muscles. This device makes optimal, safe and effective use of 5 recognized electrotherapy technologies exclusively designed to work in synergy to deliver outstanding results. Using Ultrasound, HVPC, HVSPC, Galvanic Current and Pulsed Micro-Currents for a stunning skin.

- Wrinkles • Nasolabial Spurs • Muscle Tone • Skin texture

WAVE 7

PHOTOPNEUMATIC MASSAGE DEVICE, INFRARED LEDS, ULTRASOUND AND TOROIDAL RADIO FREQUENCY

Complete program to fight against all unsightly bodily manifestations.

The ideal solution for targeted treatments, adapted to each area of the body and to provide an answer to each need: smoothing, toning, drainage. Creation of tailor-made programs.

4 essential technologies for the treatment of cellulite and its associated problems

4 ergonomic treatment heads to target ALL the problems linked to cellulite by combining the most efficient medico-aesthetic technologies on the market.

- Cellulite • Orange peel • Lax skin • Promotes the penetration of cosmetic products

PR.CELL 2G

Device for reducing the appearance of dimpling and orange peel skin in 3 suction levels and waveforms:

1. Light massage program
2. Intermediate warming program
3. Program for deep warming of connective tissues near the skin.

SOLI LITE FACE AND BODY N° 101088*

PHOTOBIO-MODULATION

A key solution to gently heal skin imperfections. This four-color photobiomodulation system (LED) is designed to treat a variety of skin conditions on both the face and body. Skin benefits from the healing effects of light thanks to the non-thermal and non-traumatic properties of LED. LEDs trigger and regulate cell activity (photostimulation) of the biological tissue through mitochondria.

- ◆ Red light: 633nm targets the dermis (photoaging).
- ◆ Blue light: 415nm targets the epidermis (acne).
- ◆ Yellow Light: 590nm targets blood and lymphatic circulation (surface action).
- ◆ Infrared: 830nm targets deep subcutaneous tissues. (wound healing).

VASCULYSE N° 97218*

THERMOCOAGULATION

This high frequency medical system makes it possible to obtain radiant skin without vascular imperfections. This unique and easy-to-use technology delivers instant results.

*Authorized for sale in Canada

Silhouet-Tone

THE BODY

DISTRIBUTED BY SILHOUET-TONE

SPIRIT LASER HAIR REMOVAL

Medical-aesthetic care device that combines the advantages of 3 wavelengths simultaneously: 755, 810 and 1064 nm.

Offers excellent results safe, fast, efficient and comfortable.

Ultra-fast motion treatments

«in motion» treatment of 2 complete legs in just 20 minutes.

IPL EXTRA 818

Medical-aesthetic care

- Photo-Epilation
- Facial rejuvenation
- Pigmentation
